Projects

Personal Portfolio - Live / Github June 2024 - Jan 2026

React, Tailwind CSS, Vercel, Vite.js, Three.js

- Built a responsive single-page portfolio in React (functional components + hooks) using create-react-app, with sections for Hero, About, Skills, Projects, Resume, Contact, and Footer, styled using a custom earth-tone Tailwind theme with Heroicons/react-icons for smooth, mobile-friendly navigation.
- Implemented a data-driven Projects section that maps configuration objects into reusable project cards linking to other web apps, and deployed the site on Vercel for fast, production-ready hosting and easy updates.

SkillSync AI - Github May 2025 - Present [Ongoing]

Kotlin, Jetpack Compose, Firebase, REST API, Git

- Developing an AI-driven engineering project using Kotlin, API and database management to solve real-world problems.
- Applied agile project management and team collaboration tools while creating technical documentation to ensure smooth development and delivery.

Swarm Feedback - Github August 2024 - Jan 2026

Spring Boot, JWT Authentication, MongoDB, React (Vite), REST API

- Developed a role-based peer review platform enabling secure uploads, anonymous structured feedback, and admin moderation.
- Implemented JWT-secured Spring Boot REST APIs with MongoDB and built a responsive React (Vite) frontend for authentication, feedback workflows, and analytics dashboards.
